Form Design/Fields List:

****Please follow the LOV naming convention as (FF_PROJ_) + value of the LOV. (Ex: **FF_PROJ_SALESMAN**)**

Screen/Popup	Field Name	Field Type	Remarks	Mandatory (Y/N)	Default Value	Visible (Y/N)
Main Screen- General Detail	Quotation Reference	Dropdown	Unique Sales Quotation ID linked to the project Need LOV Name: LOV Name - PROJECTS_QUOTATIONS	N	suggest a new LOV Name like : PROJECT_QUOTATIONS	Y
Main Screen- General Detail	Load	Button	Retrieves quotation details from the system	N	If the user selects a Quotation, all the related information from that Quotation will automatically populate in the corresponding subsequent fields by default, otherwise user has to manual input all fields, the following fields will load the data- 1.Project customer, Principal, Shipment Mode, Shipment Type, Other Mode(Conditional), Line, Air Freight (Conditional), Salesman, Commodity	Y

Main Screen- General Detail	Project Description	Text	Short description or title of the project	Y		Y
Main Screen- General Detail	Billing To	Drop Down	Entity/customer to whom billing is addressed Need LOV Name LOV Name - FF BILLING_TO	Y	It provides Dropdown values – customer, supplier	Y
Main Screen- General Detail	Billing Party	Dropdown	The party responsible for payment of charges. Need LOV Name LOV Name - CUSTOMER_SUPPLIER_MASTER	Y		Y
Main Screen- General Detail	Project Customer	Dropdown	Customer associated with the project. Need LOV Name LOV Name - CUSTOMER_SUPPLIER_MASTER	Y		Y

Main Screen- General Detail	Principal	Drop Down	Choose Principal name from list for the project. Need LOV Name LOV Name - PRINCIPAL_MASTER Y			Y
Main Screen- General Detail	Shipment Mode	Drop Down	Type of shipment (e.g., Break Bulk, Container). Need LOV Name LOV Name - PROJECTS_SHIPMENT_MODE Y		Users can either multi select or select individual of the shipment mode.	Y
Main Screen- General Detail	Mode	Drop Down	It provides the Mode of transportation Need LOV Name LOV Name - PROJECTS_MODE Y			Y
Main Screen- General Detail	Project Reference	Text	It provides the customer Project reference number.	N		Y
Main Screen- General Detail	Period From	Date	Project start period/date	N		Y

Main Screen- General Detail	Period To	Date	Project end period/date.	N		Y
Main Screen- General Detail	Salesman	Dropdown	Salesperson responsible for the project. Need LOV Name LOV Name - SALESMAN	Y		Y
Main Screen – Header	Line	Drop Down	It provides the ‘Line’ Dropdown details for shipment Need LOV LOV Name - LINE_MASTER	N	This field is displayed when the freight mode is set to Sea Freight (i.e., LCL, Break Bulk, FCL).	Y
Main Screen – Header	Carrier Code	Drop Down	It provides the ‘Carrier’ Dropdown details for shipment LOV Name - AIRLINE	N	This field is displayed when the freight mode field is set to Air Freight	Y
Main Screen – Header	Commodity	Drop Down	It provides the type of commodity for shipment Need LOV Name LOV Name - COMODITY	N	It is multi select field	Y
Main Screen- Header	Cargo Details	Text	Additional descriptive details about the project.	N		Y

Main Screen – Header	Billing Currency	Drop-Down	It shows the Billing Currency LOV Name - CURRENCY	N	By default, it is displayed based on the billing currency selected in the quotation.	
Main Screen – Header	Project Status	Drop Down	It provides the project status Need LOV name LOV Name = PROJECTS_STATUS	N	Status Behavior: By default: The status should display “Open”.	
Details Screen – Charge Details	Supplementary Quotation	Drop Down	It allows the user to choose the supplementary Quotation Need LOV Name LOV Name - PROJECTS_QUOTATIONS	N		
Details Screen – Charge Details	Load	Button	Loads the charge details based on the linked quotation.	N		
Details Screen – Charge Details	SL No	Number (	A unique identification number assigned to each row, which is also used to remove that specific row when needed.	N	Autogenerated number	Y

Details Screen – Charge Details	Quotation Reference	Text (Read Only)	It provides the Quotation reference number	N	Autogenerated number	Y
Details Screen – Charge Details	Charge Details	Dropdown	It provides the specific charge category (e.g., Delivery Order, Transportation). Need LOV LOV Name - CHARGE_MASTER_FF	N	By default –it will display the charge details from sales Quotation	Y
Details Screen – Charge Details	Printable Charge Description	Text	It provides the charge description for invoice/print.	N		Y
Details Screen – Charge Details	Charge Basis	Drop-Down	A note related to the charge will be added by user Need LOV Name			
Details Screen – Charge Details	Quantity	Number	Quantity for each charge item.	N		

Details Screen – Charge Details	Unit	Text LOV	Measurement unit for billing (e.g., BL, Trip, Crane, Doc, FRT). LOV Name - PROJECTS_CHARGES_UNIT	N		Y
Details Screen – Charge Details	Buying Currency	Drop Down	Currency used for the charge (e.g., BHD) Need LOV- LOV Name - CURRENCY	N		Y
Details Screen – Charge Details	Currency Rate	Number	Exchange rate applied for conversion. Need LOV-	N	It provides the 'Exchange rate' based on selected currency (Buying currency)	Y
Details Screen – Charge Details	Buying Unit Rate	Number	This indicates the quoted buying unit price based on the selected currency.	N		
Details Screen – Charge Details	Buying Total - BHD	Number(Read Only)	It defines the Total Price in BHD.	N	Buying Unit Rate* Quantity* Currency Rate	Y
Details Screen – Charge Details	Selling Unit Rate - USD	Number	It defines the Quoted Proposed Unit Price in USD. 1. Based on the Billing Currency at top, the user will	N	1..Based on the Billing Currency selected at the top, the currency code will dynamically change on the respective fields Header.	

			update the amount for that selected currency		For example, if the Billing Currency is selected as EUR, the field label will display "Selling Unit Rate – EUR".	
Details Screen – Charge Details	Selling Total - USD	Number (Read Only)	It defines the total selling amount based on the selected billing currency (USD).	N	In this case – Billing currency – USD Quantity * Selling Unit Rate	
Details Screen – Charge Details	Tax ID	Drop down(Read Only)	It displays the Tax ID (as defined in the Tax Master values). LOV Name - TAX_MASTER	N		Y
Details Screen – Charge Details	Tax %	Number (Read Only)	It defines the VAT % Amount.	N		Y
Details Screen – Charge Details	Tax Amount (USD-Selected Curr)	Number (Read Only)	It defines the VAT Amount.	N	It provides the tax amount based on Billing currency 2. (Tax %) *Selling Total - USD	Y
Details Screen – Charge Details	Selling - Grand Total - USD	Number (Read Only)	It defines the total selling rate in USD (Inclusion of Tax amount)	N	It provides the selling amount in local currency(BHD) 2. Selling –Total USD + Tax amount(selected –Curr)	

Details Screen – Charge Details	Selling - Grand Total - BHD	Number (Read Only)	It defines the total selling rate in Local Currency – BHD (Inclusion of Tax amount)	N	Selling -Grand Total – USD * Billing Agreed Curr Rate	
Details Screen – Charge Details	Margin - BHD	Number (Read Only)	It provides the Margin amount in BHD	N	If the Selling Amount is greater than the Buying Amount (i.e., profit), the cell should be displayed in light green. If the value is negative (loss), the cell should be displayed in light red. 3. Selling Grand Total (BHD) - Buying Total Rate (BHD)	
Details Screen – Charge Details	Remarks	Text	A note related to the charge will be added by user	N		Y
Details Screen – Charge Details	Total Buying - Rate (BHD)	Number(Read Only)	It provides the total buying amount- BHD (based on table summary)	N		Y
Details Screen – Charge Details	Total VAT(BHD)	Number (Read Only)	It provides the total VAT amount –BHD	N		

Details Screen – Charge Details	Grand Total Sell Rate - (BHD)	Number (Read Only)	It provides the total Sell Rate –BHD	N	Based on table summary and it is Final total –BHD(Inclusion of tax)	
Details Screen – Charge Details	Grand Total Sell Rate - (USD)	Number (Read Only)	It provides the total Sell Rate –USD	N	Based on table summary and it is Final total –USD(Inclusion of tax)	
Main Screen – List of Records			This is common feature (SRS - General Features - List of Records V 1.0)	N		Y
Main Screen - List of Records	Table Columns		List of columns are Date, Doc Ref, BL/AWB No, Document Status	N		Y
Main Screen – Attachment			This is common feature (SRS - General Features - Attachments V 1.0)	N		Y

User

Comments/GAPs

1. Apply color formatting to each job status, allowing users to quickly recognize and differentiate statuses for easier tracking of information.
2. The user should have the ability to export data in Excel and PDF formats and send the details via email (For Instance- Control sheet)
3. Freeze the first 3 columns under charge details tab

Discussion Items-

1. Profit Analysis report

Technical Details:

This section provides the details on the tables, stored procedure, Java functions, and LOV.

Tables Details:

Table Detail	Table Description
PROJECTS_HDR	Header table to save the project master.
PROJECTS_CHARGES_DTL	Detail table to save the charges details
PROJECTS_CTRL_SHEET_DTL	Detail table to store the control sheet details

Stored Procedure Details:

Stored Procedure Details	Stored Procedure Description
PROC_PROJECTS_QUOTATION_LOAD	To load the Projects quotation header and detail records
PROC_PROJECTS_JOBS_LOAD	To load and display the Project related job details
